

*"The books that I have written are sent out with no claim for their acceptance. It is for you to ascertain their truth by right practice and by the exercise of the intuition... I am a brother of yours, who has travelled a little longer upon the Path than has the average student." Djwhal Khul, the Tibetan, 1934.*

The Ageless Wisdom, conveyed by Master Djwhal Khul between 1875 and 1949 through Helena Blavatsky and Alice Bailey, provides an esoteric framework from which current world events can be contemplated. This wisdom is timeless because it transcends all eras, even predating humanity. What better tool can we use in our unique temporal juncture than wisdom that transcends time and humanity?

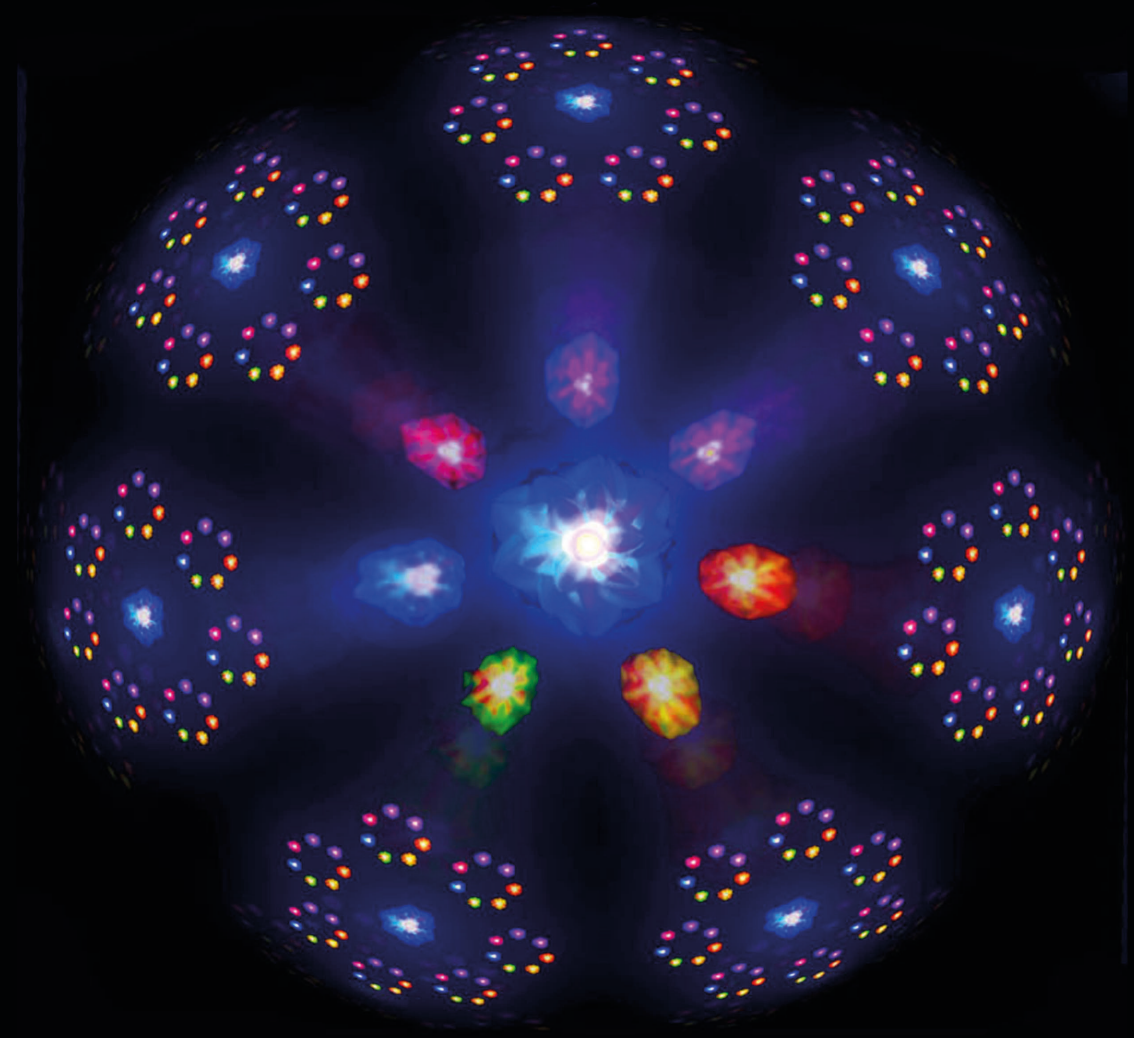

This book summarizes the teachings of Djwhal Khul and connects them to the present. It is written for both the spiritual seeker who earnestly wishes to deepen his knowledge and the advanced esoteric student or disciple. Part I describes answers to the big life questions, our long evolutionary journey as consciousness sparks or monads, and the constitution and tasks of the Spiritual Hierarchy. Part II links the Ageless Wisdom to current world events, highlighting the initiatory function of the so-called Coronation.

The reader is called to action, urging contribution to dispelling the world problem of glamour or illusion in this period leading up to the pivotal year 2025 and beyond. In that year, the Spiritual Hierarchy will make a decision that can bring about a significant turning point. This decision depends on us. What is asked of us, and what tools and esoteric sciences are at our disposal? Is there sufficient awareness of right human relations in 2025? Does a significant portion of humanity acknowledge the existence of the soul, the Masters, and the Plan? Has Christ consciousness sufficiently descended into the hearts of the people? And are the disciples doing their necessary group work to pave the way for the Masters, thereby bringing forth a completely different leadership on Earth?
